VOTE ACKERMAN

--I'm the guy with the long silver hair.

--I'm running (and, in this season, sliding) as a candidate for federal MP in the Lanark-Frontenac-Lennox & Addington riding where I was born and raised many years ago.

--My multi-faceted career as a financial analyst has taken me to 3 states and 4 provinces and involved me in farming, investing, consulting, entrepreneuring, writing, professing and speaking out on public issues.

My party is neither provincial or regional. It is national -- the only party that puts Canadian interests FIRST.

It's the Canadian Action Party, headed by Connie Fogal -- an outstanding Vancouver lawyer.

Our policies, plans and strategic steps are outlined at www.canadianactionparty.ca

In THIS riding -- where I intend to spend the rest of my life -- I am focussed on issues that are basic to the well-being of every person, wherever they live in Canada. The air we breathe, the water we drink is already at risk :

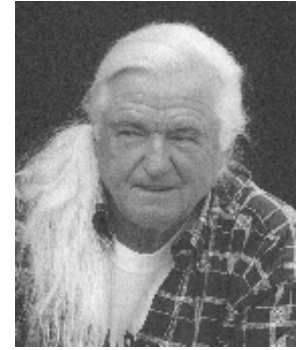

e.g., the Richmond twp. dump

e.g., the Bath cement plant

e.g., the Tay river mine

I DON'T OFFER INSTANT SOLUTIONS or VAGUE PROMISES.

I do think my understanding of financial analysis and institutional decision-making will be valuable assistance to the threatened communities. It may be useful to share the experience of a Nova Scotian community in their 3 year ordeal to force a Federal Environmental Assessment of a plan for royalty-free access to 50 years of exporting basalt to the USA, destroying the rich whale and fish habitat and major tourist destination.

VOTE ACKERMAN

--I'm the guy with the long silver hair

--From 5th Lake, halfway between Parham and Tamworth

--Edge of Frontenac County, Eastern Ontario

--Born there; schooled in a 1-roomer

--Went to Tamworth, then Napanee

--Went off South and West to get a full education

--Studied farming economics, management, and finance

--A Professor in Manitoba, working with farmers and their kids

--Helped with 2 best-selling books and advised investors as a sideline, for decades

--Developed tourist campgrounds, motel, and restaurants in N.S.

Now, my wife and I have built a retirement cottage on the lake, near my brother David who has always lived there

I 'm Mad as Hell about:

--The U.S. taking over Canada

--Grabbing our oil and gas

--Keeping our \$5 billion

--Coveting our water

--Controlling our businesses

--Imposing their laws on Canada

--Our banks and corporations selling us out

--Our political leaders looking like traitors by helping it happen

This election is Canada's last chance to keep Canada for Canadians!

We have been bombed with buzz-words : "markets" "free trade" "globalization" "technology" "prosperity" "terrorist threat" "9 / 11"

"missile defence" "willing coalition" "mutual benefit" "Canada-USA partnership"

Q. What truth has been rising from this fear-mongering? Little!

(a) NO opportunity to examine, question, understand, consider, discuss, accept or dismiss the DEEP INTEGRATION plans of the Council on Foreign Relations -- the mouthpiece for US foreign policy and the CCCE (Canadian Council of Chief Executives) -- a band of bankers, corporate leaders and traitor politicians devoted to secretly "Building a 21st Century Canada--United States Partnership in North America (April 2004). Their task force report (May 2005) emphasizes the urgency of their recommendations : "long-term steps to be implemented by 2010 (page 6) ; "establishment by 2010 of a security and economic community for North America (page 33) "

(b) NO opportunity to question the plans of Canada's Chief of Defence Staff to arm up for defending the US presence in Afghanistan and the mock armed invasion of Winnipeg on April 30th.

(c) NO opportunity to forbid Stats Canada involving Lockheed Martin with this year's census.

Q. What CAN be done ?

1. We can cancel NAFTA now. (6 months notice). Oil and gas markets will not disappear, and we can keep enough for ourselves and set our own prices.

2. We can refuse to help finance war weapons, refuse to send our military to assist US aggression and direct OUR security forces to peace keeping, arctic sovereignty and natural disaster relief.

3. We can refuse the continued privatization of our public services ---our healthcare, our education, our social assistance, our transportation, our infrastructure, our environment, and the "harmonization" of our laws and regulations with those of the USA.

4. We can copy some South American countries that are using their central bank and treasury to eliminate debts to the International Monetary Fund. Long term low cost loans from our Bank of Canada will save some of the \$36 Billion annual cost of our national debt.

These immediate threats and plans are REAL, and call for immediate ACTION -- on your part and mine.

MY efforts will continue well past Jan 23rd.

YOUR voting for me will speed these efforts.

Putting OUR interests FIRST will mean an even better place for our grandchildren.

ACKERMAN, Jerry Canadian Action Party

Authorized by Official Agent for the candidate, Sylvia Powers, 101 Cote des Neiges Road, Nepean, ON, K2G 2C9

Put on YOUR Thinking CAP

The bankers, corporate executives and traitor politicians have secretly planned full integration with the U.S. by 2010 . . .

- * Remove our border
- * Override our laws and regulations
- * Control our resources and businesses
- * Ignore environmental considerations
- * Send our jobs away
- * Privatize our public goods and services (health, education, infrastructure)

. . . thus destroying all vestiges of a society that wants to make decisions and take actions in its OWN interest

What we must do NOW

1. Cancel NAFTA. A 4% export tax on natural gas will recover the \$5 billion owed by the U.S. in six months' time. Take back control of the businesses and jobs that belong here. Prevent further destruction of the water we drink, the air we breathe.

2. Fund our economy through OUR OWN BANK--THE BANK OF CANADA that we all own. Then we can afford to pay for our health , education, infrastructure, environment and pay off national debts.

3. Refuse to finance and assist efforts of the USA to control the world. Stop buying their war machines. Disallow Lockheed-Martin involvement in our 2006 census taking. Direct OUR security forces to peacekeeping, arctic sovereignty, and natural disaster relief.

UNLESS YOU and I raise THIS VOICE

THE VOICE OF THE *CANADIAN ACTION PARTY*

in THIS election campaign

CANADA will no longer be OUR country.
